TERMS OF REFERENCE
Supply and Delivery of 300 Mbps Direct Internet Service

Summary Statement

- 1.1. In pursuit of a resilient internet connection, Philippine Children's Medical Center (PCMC) will be upgrading the internet facilities and bandwidth capacity.
- 1.2. The Philippine Children's Medical Center is issuing this Terms of Reference (TOR) as part of the Bidding Documents for the undertaking on "INTERNET SERVICES DEDICATED LEASED LINE." This TOR contains the functional requirements identified by the Management of Information Systems Division (MISD) based on internet requirements by the hospital offices.
- 1.3. The scope of this undertaking is to design, build, deliver and provide managed internet services to operate a complete Internet solution for PCMC for one (1) year.

Background Information

Rationale

PCMC, through MISD, has been providing internet services to the hospital. Online government applications, portal and website transactions are vital to the operations of the agency.

Limited Bandwidth and the absence of a secondary link that will serve as backup are the issues that PCMC faced.

Last year, when the pandemic hit the country and most of the transactions went online, PCMC experienced a significant number of influx of internet usage. Teleconferencing, the mode of choice for non-face-to-face transaction, is where the bulk of the internet bandwidth is allotted.

The current bandwidth that the hospital has can no longer sustain the demand of users browsing the internet and volume of transactions for online applications. PCMC is currently experiencing lag (slow transactions via the internet) on the network.

The additional bandwidth will address the need of a higher bandwidth for Internet use and this will also serve as a backup Internet connection, if the primary link goes down. This will ensure that the PCMC Internet Connectivity is stable and resilient. Upgrading the facilities and increasing bandwidth capacity will address the lag issue.

Expected Output

Outputs

PCMC expects the following

- Faster browsing of the Internet
- 1:1 dedicated internet bandwidth usage

- CIR 300Mbps 1:1 upload and download
- Volume transactions to TELECONFERENCING (TELE-MED, ZOOM, online Training and Conferences, et al.), PHILHEALTH, GSIS, e-CLAIMS, DOH web applications will be accommodated and response time will be faster
- Download and Upload speed will be faster
- Fast and reliable Internet Service
- PCMC will have sixteen (16) useable Public IP's
- Email mailboxes with 600GB space
- Webmail administration
- Internet will be monitored 24x7
- 24x7 technical support

General Scope

The objective of this undertaking is to select a single secondary internet service provider, aside from the incumbent ISP, to setup, manage and provide the internet service to PCMC.
